## WORK EXPERIENCE

### Full Stack Web Developer

Gezairi Group, Beirut | Jan 2026-present

- **Architected and launched an end-to-end logistics platform** from scratch, owning the full product lifecycle from stakeholder requirements to production deployment.
- **Engineered a scalable backend** (Node.js, TypeScript, Express) featuring modular services, RabbitMQ integrations, background jobs, and Role-Based Access Control (RBAC).
- **Developed a responsive, workflow-driven frontend** (React, Redux/Saga) to streamline domain-critical operations, including ocean freight, container management, and billing.
- **Designed and optimized SQL database schemas**, executing production-safe migrations and resolving complex data integrity issues.
- **Established production deployment pipelines** and project tooling, implementing automated testing foundations to ensure long-term maintainability and system stability.
- **Tech Stack:** Node.js, TypeScript, Express, React, Redux/Saga, SQL, REST APIs, RabbitMQ.

### Full Stack Web Developer
